

I am writing concerning a local FM station that my family and I really enjoy. This station is KLVW(88.7)Midland, Tx, (89.7) Big Spring, Tx, and (98.3) Hobbs, NM. I have heard that LPFM stations could replace this very important station to this community. KLVW announces local events and keeps us informed as well as provide family friendly programming. I love listening to my 13 year old daughter sing along with the music of KLVW who told me last night, "Daddy, I think I know all of these songs." Please consider not replacing this very important station to all of us here in West Texas and Southeast New Mexico.
